

FEDERATION

Srijan Foundation has been working for the inclusive development of adolescent girls since last 2 years under the Child Marriage Prevention Program. Since, SF follows a "Peer Led Approach" so it was decided to create a collective group of the adolescent girls to address the issues faced by them both at individual level and at community level. This collective group of AG from different villages was termed as "Federation". Federation is basically a group of peer leaders from different villages, to discuss social issues and find solutions together with the help of other federation members on a common platform. This would not just talk about issues and solution, but this set of group will also receive information about different topics and then the peer leaders can pass it on in their respective groups. This initiative would help them in confidence building, improve their communication skill and will enhance their leadership skills.

OBJECTIVES:

- To develop collective visioning among the peer leaders.
- Increased communication among the peer leaders.
- Sharing of community level issues by the individual peer leaders.
- Finding out solutions together through federation.

Functioning of Federation

To be conducted ones in every month and is decided by the Federation members itself.

Project Reach Area

- 10 villages of Palkot, Gumla
- 10 villages of Ichak, Hazaribagh

Total Federation Meetings Conducted

- 4 Federation meeting in Ichak, Hazaribagh.
- 4 Federation meeting in Palkot, Gumla.
